- **Cloud & Middleware:** Azure Cloud, GCP, AWS, IBM Bluemix/Watson, TIBCO EMS, Talarian RT Server, Tuxedo, Coherence, Airflow, Hazelcast.
- **Databases & NoSQL:** Oracle, SQL Server, Sybase (ASE/IQ/MPX), Informix, MySQL, MarkLogic, Endeca, Splunk, MongoDB, Firebase.
- **Automation & Testing Tools:** Automation Anywhere 360, Rational Robot, Silk, WinRunner, DbXI, JUNIT, Quality Center, Selenium.
- **Web Platforms & APM:** Apache (LAMP), WebLogic, IIS, MEAN, Akamai, AppDynamics, Dynatrace, ServiceNow.
- **Blockchain:** Ethereum Solidity, Block.One - EOS.

Qualifications & Certifications

- **Master of Business Administration (MBA)** — Sikkim Manipal University (76% - Excellent)
- **Post Graduate Diploma in Computer Applications (PGDCA)** — IHRDE (79% - Distinction)
- **B.Sc. Physics** — Calicut University (69% - First Class)
- **Certifications:** ITIL V3 Foundation & Intermediate (OSA/CSI), IBM & Google Certified Data Science Professional, Credentials in Data Engineering, GCP, AWS, UX, SRE, and Cybersecurity.

Detailed Experience

UBS | Singapore| **Associate Director** | *Jun 2024 – Present*

- **Cloud Migration:** Led Azure cloud migration workstreams for the HOLT Lens platform with zero disruption to business operations, partnering with architects and product owners to deliver a secure, compliant platform.
- **RPA Automation:** Primary Owner for Automation Anywhere 360 bot (ROB-105345), delivering fully automated Start-of-Day (SOD) and Weekend Checkout processes for Research Authoring and Publishing workflows.
- **Observability & Data Engineering:** Implemented predictive alerting and observability solutions for Azure data pipelines using Airflow, Application Gateway, and Hazelcast. Designed automated SMOKE test suites for HOLT Lens data validation.
- **Blockchain Innovation:** Authored a blockchain and tokenization strategy paper and developed NFT-based prototypes for Equity Research distribution.

Credit Suisse | Singapore

Assistant Vice President | *Mar 2023 – May 2024*

- **Production Support & Reliability:** Managed global production support for Client Channel Technologies (CCT) applications, ensuring high availability and stability across regions. Served as Infrastructure & CI Deputy Owner for CCT platforms.
- **Major Incident Management:** Acted as APAC Duty Manager for Major Incident Management, leading cross-functional teams to restore critical client-facing services under tight SLAs.
- **Regulatory Readiness:** Ensured platform readiness and compliance with regulatory frameworks including MAS, HKMA, and FINRA.

Accenture (Client: Credit Suisse) | Singapore

App & Cloud Support Manager | *Nov 2018 – Feb 2023*

- **Solution Architecture (Apr 2020 – Feb 2023):** Solution Architect for PLUS2 portal product integrating Adobe AEM, Analytics, and MarkLogic. Implemented MAS 655 compliance, decommissioned Endeca for SG users, and migrated users from PLUS1 to PLUS2. Coordinated 30 developers for architecture design and implementation.
- **L2 Production Support Management (Nov 2018 – Mar 2020):** L2 Support Manager for Research Applications. Built up offshore teams, transferred application knowledge, and implemented Skywalker Project monitoring tools.

Credit Suisse | Singapore

Application Support Team Lead (Executive) | Feb 2010 – Nov 2018

- Led L2 Production Support for CRM and Equity/FI Research Publications, Entitlements, and Distribution applications across Prod & DR environments.
- Responsible for QA and support for GEARS (Delta One Market Risk Management) across US, UK, and APAC.
- Developed DB Automation Test Suites for Prime Finance GEARS, automated monitoring scripts, and build sanity validation utilities.
- Change Management Agent for office transition (Changi Business Park to One Changi City) and tool migration from BMC Remedy to ServiceNow.

Origem Solutions (Client: Credit Suisse) | Singapore

Senior Technical Consultant | May 2006 – Feb 2010

- L2 Support Team Lead for AGORA (low-latency equity order state management system) across global Prod, Dev, QA, and UAT environments.
- Designed and developed over 50 web monitoring alerts and a Core Java automated testing solution for AGORA entitlements.

SumTotal India | QA Lead-II | Dec 2005 – Apr 2006

- Designed, developed, and implemented an Automated DB Testing Framework for SumTotal LMS system.

GE Infrastructure (India Technology Center) | System Analyst | Dec 2003 – Dec 2005

- Global Product Test Lead for Proficy Change Management (4.5, 5.0, 5.5) and GE Fanuc industrial automation solutions.

ADP / Satyam / Kale Consultancy | QA Lead & Software Engineer | Apr 1996 – Dec 2003

- Led SQA methodologies for Automotive Dealership CRM systems at ADP.
- Test lead for Telecom Cable-TV Billing & RAMPS systems at Satyam.
- Customized and implemented banking solutions (PLUTUS-BAS, WinBank, SEVA) across 30+ bank sites at Kale Consultancy.
